NOTICE.

SEALED PROPOSALS will be received from the date hereof until the 10th day of May next by the President and Secretary of the South Bay Meadow Dam Company, for the erection of a dam across Castine River, at Dayes' Narrows, so called. Said dam to be built on the bottom in the deepest part, with a gateway twenty-two feet wide near the middle, and of sufficient height to exclude all the salt water at the highest course of tides. Said dam to be built in a permanent and workmanlike manner, of stone and gravel, and well spiked with good hemlock plank. The gates to be made of good materials, and put in in a permanent and workmanlike manner, and completed by the first of November next.

The distance across said Narrows is 215 feet at high water and 152 at low water, and the depth of water in common tides is from 1 to 6 feet at low water and the ebb and flow varies from five to eight feet.

Persons desiring to contract for said dam are requested to call on the President, at West Brooksville, or the Post Office, who will wait on them to the place where said dam is to be built, and give all necessary information. Persons residing by mail are requested to direct to West Brooksville.

Winslow Glass Works, Camden Co., Millville Glass Works, Cumberland Co., N. J.

THESE WORKS comprise five Factories, with their appendages, of sufficient magnitude to make over 100,000 boxes of Window Glass annually, embracing every variety of size, from 6-8 to 35-45.

The proprietors are determined to leave no means untried to make their glass equal in all respects to the European Cylinder glass. They have engaged the most skilful Blowers and Flatteners, and particular attention is paid to the assorting of the qualities.

The Cutters are held to a strict responsibility, and for this purpose the glass assorted by them has their respective names branded on the boxes in which it is packed. Purchasers having just causes of complaint, are requested to report them to the subscribers, with the names on the boxes complained of. Strict attention will be paid to their communications, and a remedy applied. Accounts will be opened for sums over $100, with punctual men, residing at places where we can draw for their accounts when due. An average credit of six months will be given, and settlements made, semi-annually by drafts drawn one month after date, so as to give the payer timely notice to prepare for it. COMMERCIAL HOTEL,
Corner of Wall and Water Streets.....Bangor

THE subscriber would respectfully give notice to his friends and the public, that he has taken a lease of the spacious and elegant building on the corner of Wall and Water streets and opened the same as a Hotel. It has been fitted up in superb style—contains several fine suits of rooms, parlors and chambers—and altogether will compare favorably with any hotel in Maine. Its locality is central and convenient for persons visiting the city on business, and for those intending to take the steamers, being near the steamboat landings.

Important Letter.

MESSRS CURTIS & SMITH.

Dear Sirs.—I herewith enclose you a few lines relative to your "Doctor's Elixir," which, for the benefit of the suffering, if you think worthy you are at liberty to make public. About a year and a half ago my mother became sick, so that in a short time we began greatly to fear for her life. Her symptoms were, bad cough, pain in the side and stomach, night sweats, and other premonitory signs of pulmonary consumption. We consulted our best physicians, who gave her little or no relief, and finally pronounced her case incurable consumption. She continued to become weaker, and the symptoms more confirmed.

About this time, at the suggestion of a friend, we concluded to try Downs' Elixir. Having procured a bottle from you r agent [S. H. Byram of Eastport] she commenced taking it. At first it seemed only to aggravate the severity of the symptoms, but in a short time her health began evidently to improve. It cured her cough, relieved her night sweats, and greatly improved the tone of the whole system.—After having continued its use most of the time for nearly a year, she calls herself cured. She is now able to go about the house, and other light affairs as usual. Under God we believe that to Downs' Elixir, alone, she owes the preservation of her life, and the restoration of former strength and energy. We have also used it in our family in other cases for which it is recommended in the pamphlets, with universal success. Yours truly,

[Signed] SWAIN P. HOMERTON.

The above is only one of a thousand similar letters which we are constantly receiving, from all parts of the country, almost daily.

DOWNS' ELIXIR is unquestionably the best article known for the cure of COUGHS, COLDS and CONSUMPTION. It is sure, certain to give relief in all cases of ASTHMA—often a perfect cure—than any thing hitherto offered to the public.

In case of WHOOPING COUGH it needs only to be tried to give it preference over all other remedies. It immediately loosens the cough, and renders it more plentiful, which relieves the spasmodic and tight, For the CROUP it is positive. We speak with confidence, for in four cases we have known, we have kept a constant observation, [illegible]

Pamphlets, giving a full description, to be had of agents in almost every town of prominence all the country. [illegible]

☞ Ethereal solution of cotton is now the great article among surgeons It is a new discovery by Mr Maynard, who in attempting to use it for varnish for which it failed, discovered its adhesive properties Its extreme tenacity of adhesion and impervousness to blood, water and air renders it peculiarly fitted for the union of wounds by the first intention, as an applique to broken limbs fissures contusions and abrasions where it is necessary to approximate surfaces or exclude atmospheric air In these cases it remains meritorious and simple dressing and obviates the objections to the application of plaster A patriotic article is now made use of most of the shops in the country

☞ A beautiful pair of beef oxen have been brought to our market by F A Batman, Esq, and sold to Mr John Low of the city market, at seven dollars and fifty cents per hundred — These oxen were fed by Col Henry Bateman of Dixmont, and though last so far as our acquaintance other oxen which have appeared here, are yet remarkable for their fine symetry, color, fatness and beauty Bangor market is really getting to be famous for the excellency of its beef The farmers in this vicinity possess the requisite skill and means for growing and fatting fine cattle

☞ The Gazette must have a strong love of misrepresentation, or it would not indulge in it even to falsification, upon so slight an occasion and for so small a purpose as that in its last issue, relative to the Whig and the Postmaster — If a man deliberately and cunningly lies, it should be, at least, to a case where he gets pay To lie without a reward is adding folly to sin

Tribute to the memory of Mr. Adams in France.

Some plain Thoughts in relation to the Whig Candidate for President.

No. III

The question—the *practical* question to be settled is what course is it wise, honorable, right and expedient for the Whig party of the Union to pursue, in view of all the facts and prospects before them Many of our wisest, most patriotic and true hearted friends fully believe that we ought not to hesitate to nominate and support Gen Taylor I have already intimated that I have come to the same conclusion

I am aware that several objections are made to this course and I do not deny that it is natural, that an ekarnest and zealous Whig should ask for evidence that Gen Taylor is a Whig before he is willing to join in his nomination

There was a time, we all remember, when from various quarters the question was pressed, "who knows whether General Taylor is a Whig or not? Many would then gladly have asked for *that fact*, and they would most heartily support him We have been assured from responsible sources that Gen Taylor has declared that if he had been in a situation to vote at the last election, he should have voted for Henry Clay This declaration alone goes far to settle his political character — A man who would have voted if he could, for Henry Clay is preference to any other being can must be at least a Whig—true and firm

But if any doubts could be raised heretofore on this point they are fully and finally put at rest by Gen Taylor himself In his letter, dated Feb 12 1848 to Col Mitchell, he says—

"I have on this occasion in stating in I have stated on former occasions *that I am a Whig* though not an ultra one and that I have no desire to conceal this fact from any portion of the people of the United States It is said, that he has written letters in reply to some democratic meetings, and some Native American gatherings, in which he says he shall not decline their support, if they see fit to vote for him And why should he? Would Mr Clay or Judge McLean refuse such support?— But let it be remarked, that he has never said "I am a Democrat, or I am a Native American when he has thus accepted their proffered support. But he has said, and always says "I am a Whig, and I wish this to be fully understood by the people Now, when a man of intelligence, integrity, and honor, tells me that he *is* a Whig, I understand what he means; I do not deem it necessary to begin a cross examination, and to imply a doubt of his truth and sincerity, by demanding a specification of every point of his creed I understand him to say, that he concurs in the great, leading, and essential principles avowed by the Whig party, and which distinguish them as a National party from their opponents. I understand him to say, that he coincides essentially with that party, and that in his political action he should be guided by those views and principles

But it is said, that Gen Taylor will give no pledges, and says he will be governed by the Constitution and the high interests of the country, and not by party dictation And is there good ground to oppose a man, for the avowal of such a doctrine?

But grant, for a moment, if you will, that you have not a right to expect, under General Taylor, an administration as peculiarly and strictly party in its character, as under some other of the candidates named Grant, if you will, that you may not expect so sudden and general a change in the incumbents of the offices, in *every* section of the country Nay, grant if you insist upon it, that you cannot calculate so surely upon enacting and establishing all the favorite measures of the most zealous Whigs Grant all this, and as much more as you may demand, for the argument's sake, and still the question returns—Would you not infinitely prefer him, with his honest and sincere and patriotic heart, his purity of life and simplicity of manners and his unpolluted freshness, and impartial and untrammelled purposes, to another of the tribe of the intriguing, selfish and mousing demagogues the creeping things of earth, who have no higher view of the duties or responsibilities, than to pander, to the lowest passions of the multitude, and to divide the spoils of victory Men, who deal with the mighty questions of peace and war bloodshed and robbery, but as mere pastes of party expediency, who acknowledge no higher motive than love of power and no obligation but to the dictates of a party caucus Would it not be refreshing, to see once more, in the high seats of power, true hearted and honest men, who have intelligence to understand and firmness to pursue "the high interests of the country," uncorrupted by the possession of power and unterrified by the denunciations of demagogues

There are doubtless many questions of importance, touching the National, and other interests of the country, which are incorporated into the Whig creed But I confess, that it seems to me, that the *great question now*, which reaches, in a practical question beyond and deeper than any or all of them, is that which relates to the exercise of Executive power I cannot resist the conviction, that unless a change in the practical working of our system is brought about, our government must soon, if it has not already, become in principle, a despotism of the worst kind Executive power will soon overshadow every thing Our Congress men will become be mere [corrupt] senators of decrees from the White House The immense patronage of the President, when used with an eye single to that purpose, can control, beyond the power of resistance, the policy and the laws of the land Well did Mr Webstersay "we from ble before Executive power And it does not diminish in the least, the impending danger, that the incumbent of the executive office may be but a pigmy, in himself, "A dwarf behind his steam engine may remove mountains

It is not to be disguised, that in the practice of the party in power, executive power in all its Forms may be kept up,—biennial elections of Congress men may be held,—debates may be tolerated and the press may discuss, but there is a power more potent than words, or arguments, or demonstrations. It is not in the Veto power that the strength chiefly lies That is patent, open, seen and read of all men *But it is, in the strong box of the Treasury* I can see no hope of curtailing or restricting this overwhelming and daily strengthening power of the crown, but in a change of men, We want, and must have a new and fresh man, out from the ranks of the people—one who comes to his post with something of the spirit of the fathers of the constitution,—one who has not been corrupted and seduced by long familiarity and connection with mere party schemes and objects—one, in short, who will look to the constitution for his guide, and who will administer the government as Washington did We want a President who will be most solicitous to avoid interference with the deliberations or decisions of the representatives of the States and of the people—who will perform his own duties, and maintain his just powers unflinchingly, but will submit, in matters of legislation, where no constitutional obstacles intervene, to the will and wishes of the people as declared by their representatives We want a President who will maintain, as far as possible, the independence and constitutional rights of every department of government Such a man, I believe we shall find in ZACHARY TAYLOR, and I, for one, am willing to trust him I feel that the time has fully come, for a united and vigorous effort to bring back the ship of State on to the old and right track, and I believe that he perhaps beyond any other man, is the pilot to do it

But we are reminded that he is a military man, and that it is dangerous to take such a man from his position and make him President I would not underrate the force of this objection And yet, after all, its force must mainly depend upon the character of the individual A mere military man, who should assume the right to an elective office, on account of his services in the field and part exclusively if, like many in ry managers of former days, he should attempt to force his way by the strength of arms, would meet a stern and determined resistance The people would not sustain him a moment.

But my mind we will of military chiefs, I have been fear of them as a body, than of the creeping, grovelling, reckless and corrupt demagogues, who are ever ready to betray with a kiss Burst it once again, it will encourage a warlike spirit, and tempt men to favor hostile movements, if we reward military men by civil office There is another side to this picture, which serves at least to qualify the objection It will teach restless politicians—civilians, if you will an important lesson, that if they plunge the country into needless wars, for selfish or party purposes, that they may raise up men, who shall find favor in the eyes of the people, and supplant them on the seats of power It will not be a source of great regret to many, to see the authors of the Mexican War, displaced by the man who has, in that war, won brilliant laurels, despite their coldness and hostility

"For 'tis sport, to see the Engineer
Hoist by his own petard."

The Telegraph.

The important work of stretching the wire across the St Lawrence at a point near the Chute of the Lachine Rapid, for the Troy and Montreal Telegraph, is now fast progressing toward completion From the east shore to Allopp's Island is 2200 feet, and from this island to the west or Montreal shore, 3160 A pier will be built on a small island, now submerged in water, between Allopp's Island and the east, or Lapierre shore; on which a strong and high scaffold will be erected, supporting a wheel projecting from the top to 150 feet from the ground Two other masts, one on the east shore, and one on the east side of Allopp's Island, will be of the same height, and that on the west shore, 120 feet including piers, &c. It is said that one fourth of the members of the Baltimore Convention will consist of office holders under the present Locofoco dynasty — As these are willing to deal the cards without shuffling, a vigorous effort will be made to nominate Mr Polk His election will ensure to them their offices So we may infer how the chance for the nomination is growing better every day The will of the party centers in the office holders —[Belfast Signal

We enjoy the following interesting letter of the foreign correspondent of the Boston Journal It also gives us pleasure to state that Messrs Henry Fetter & Co, of Boston have established a manufactory of the beautiful carpets it describes, at Roxbury, Mass

[Correspondence of the Boston Journal.]

HALIFAX, Eng, Jan 8, 1848

It is market day in this retired market town in Old England Every Saturday for generations long past, the farmers, the manufacturers, and buyers and sellers of every kind of merchandize and produce, have assembled to transact their weekly business It is the great day of the week, and as you pass through the narrow streets, hardly more than twelve feet wide, between rows of ancient, small, but substantial stone houses and shops, to the market place, and hear the broad Yorkshire dialect of the bystanders there, everything reminds the traveller that he is in a foreign land

Halifax is a woollen manufacturing district,— Worsted stuffs, merinos, and worsted damasks are sold here in large quantities. It is also the site of the largest carpet and factory in all England The extent and imposing appearance of the buildings connected with this establishment, have drawn my attention particularly to it, and in answer to my enquiries, an intelligent friend has given me some information which will surprise many persons in the United States.

There is too much reason for the common opinion that the middling classes cannot live in England I am happy to learn of one instance of complete success, and am told that more or less ex ists in all parts of the kingdom.

Some twenty years ago, John Crossley was a village dyer, receiving small parcels to be dyed from any one who might call He then occupied a plain, substantial stone warehouse opposite the market place, with ten carpet looms. In that same warehouse, without improvement or ornament, John Crossley & Sons, now sell of retail all that portion of the product of 1000 looms required by the little town of Halifax and its environs The remainder goes to supply the pride of London of Liverpool, and the cities of the United States There is something truly English in this. The same splendid carpets which are displayed through the great windows of Fetter & Co in Boston, or Orne & Co of Philadelphia, and which have procured for their producers the highly honorary appointment of "Carpet-makers to her Majesty, are sold in the same plain warehouse in which the father began to weave them, and in which there is not a window of sufficient size for their exhibition

Their factories stand just outside of the compact part of the town, and in them modern appearance present a strong contrast to the older structures of which it is composed The court yard contains about three acres surrounded by a stone wall Into this enclosure there is but one entrance, by a gate, in front of which there is a small sentry box with glass windows, which enables a watchman to look every way Nostrangers can pass here It is intended to protect the secrets of the place, which, since the introduction of tapestry carpets, are considered to be very important

I am informed that no workman is instructed in the whole process. Each is taught a part, but not enough to enable him to go away and make a carpet

I wish to give an idea of the size of the buildings —Having no opportunity to measure, I counted forty four windows in the length of the side of the longest one, which is built of light free stone, six stories high, and must be nearly three hundred feet long. Around this are three or four other factory buildings, which, in size and appearance, correspond with the principal structure The same proprietors are erecting a building in a style very common and popular with the manufacturers here, but which I have never heard of in the United States It is called a *shade*, covering a great extent of ground, but one story high, and lighted from the top — It is a very interesting looking building, built of stone in the Gothic style with ornamental towers and turrets, and as the master mason informs me, is 400 feet long and 180 feet broad It is considered a great advantage to have machinery stand firm on the ground floor, where there is no chance for a jar or trembling

These facts will indicate the wealth and business importance which this house have acquired within a short term of years, and show that in this country, industry and enterprise sometimes have a reward

John Crossley & Sons are known everywhere for their strict integrity They will always at one price, and fill every order to its term No man can gain a preference or a precedence from them They manufacture every kind of carpeting, but have been chiefly distinguished for their successful improvement of the patent tapestry Brussells I am informed that this new method was invented in Scotland some fifteen years ago. It was at first quite imperfect, but has gradually improved, until now the goods have all the delicate and beautiful shades of a painting Any object can be represented upon them, even landscapes and water scenes The methods used in preparing colors are such as render them more durable than other carpets, and less liable to fade with sun and air. They are of two kinds—the cut or velvet pile, which corresponds to Wilton, and the uncut, which are similar in nature to Brussells carpets. The demand for them has been very great, and is constantly increasing — The immense new building described above, is to be entirely filled with looms; and if the opening of the merchants of Boston is correct, they are soon to come into general use, and supercede all other kinds of [illegible] goods, quantities are annually sent to the United States.

Yours truly,

IMPEACHMENT OF GEN. SCOTT.

Ratification of the Treaty Doubted!

The Arrest of Paredes for an Attempted Revolution

AUGUSTA, Geo, April 17, 1848.

The overland express has arrived, bringing New Orleans dates to the 13th inst The ship Cincinnati had arrived with advices from Vera Cruz to the 4th inst, and the steamer Washington, which left Vera Cruz on the 3d with dates from the Capital to the 30th ult

This brings us four days further proceedings of the Court Martial, which are, however, too voluminous to report

Gen Scott has been unpeached, and the testimony of paymaster Burrows was being heard for the defence

It was the general opinion among Mexicans of the better class, that Congress would not dare ratify the treaty

Lieut John Smith, of White's company of mounted men, deserted at Vera Cruz on the 30, taking several men along with him, belonging to his Company He offered their services to Zenobia, the Guerilla Chief, who kept them prisoners, and sent word to Col. Wilson, who sent after them They arrived at Vera Cruz well secured The Free American was quite indignant.

Since the Mexican authorities have been restored to power, Paredes attempteda revolution, and was deposited to have been arrested by order of the government.

Intelligence had been received, confirming the rumor of Santa Anna intending to leave Mexico, and adding that he had refused the steamer offered by Governor Wilson for his conveyance

Gen Scott was hourly expected at Vera Cruz and the court martial had adjourned to the United States.

Capture of a large number of Fugitives from Slavery.

One of the Washington correspondents under date of the 17th inst. says—

"The vessel that started from Washington on Saturday night, with kidnapped or runaway slaves on board, to the number of at least fifty from this District—some say one hundred in all—has been captured in Chesapeake Bay The human cargoes and some round from Jersey with a load of wood Dorchester, the object of the trip was to carry the slaves in question to the North The schooner under a good breeze had got into Chesapeake Bay, one hundred and fifty miles below this city, when captured by a steamer from Baltimore several others having been sent after her, on receipt of telegraphic advices from this city

Destructive Fire in New York.

NEW YORK, April 19, 2 P M

A destructive fire broke out in a cabinet maker's shop, at 118 Wooster Street, in this city, last night The loss of property is immense—estimated at $150,000—insured for $75 000 It is said to be the largest fire that has occurred here since the great conflagration of 1845.

CONGRESS.

Washington, April 17, 1848.

In the Senate—

Mr Allen presented the resolutions adopted by the Legislature of the State of Ohio, in favor of adopting Whitney's railroad to the Pacific, which were ordered to be printed

The California Claim bill, after some discussion was recommitted to the military committee, without instructions

The Supreme Court bill was then taken up and discussed by Messrs Atchison, Allen, Crittenden Butler, Foote, of course, and others.—Adj

In the House—

Mr Clingman of North Carolina, moved to suspend the rules in order that he might offer a resolution calling upon the President for a copy of all the correspondence between Gen Winfield Scott and the War Department, which was adopted

Mr Charles J Ingersoll, of Penn, offered a resolution instructing the Committee on Ways and Means to enquire of the Secretary of the Treasury respecting the alteration of duties on certain French importations for benefitting the industry of the French

Mr Vinton, of Ohio, offered an amendment to it instructing the committee to inquire as to what alteration was necessary in the tariff of 1846 for increasing revenue, which was warmly discussed by Mr Holmes of South Carolina, and Mr Hudson of Massachusetts.

Mr Boyle moved to lay the subject on the table, which was taken by yeas, and decided in the affirmative

Mr Bokee moved to suspend the rules in order that he might offer a resolution requiring of the President whether Gen Scott had been suspended and why which was taken by yeas and nays, and decided in the negative The House then adjourned

WASHINGTON April 18.

In the Senate, Mr Miller from the committee on Naval affairs reported a bill to increase the medical corps of the navy

Mr Dix, from the committee on commerce reported a bill to allow the line of steamers between New York and N Orleans to touch at Havana; and receive passengers and mails

A resolution was introduced for the relief of madame Rogers, for his sufferings in Mexico

Mr Niles submitted a resolution instructing the committee on finance to enquire into the expediency of coining quarter dimes, and discontinuing the coinage of cents, which was adopted

2000 extra copies of the report of the secretary of War, as to the number of killed and wounded and deceased in Mexico, were ordered to be printed.

Mr Cass from the committee on military affairs, reported back the bill respecting Caldwell's claims without amendment

In the House, Mr Giddings moved to suspend the rules, that he might offer a resolution for a select committee, to inquire why 77 men, women and children have been cast into prison this morning, for attempting to escape from bondage Objections were made, the motion was lost, and was subjected to much laughter

Strippings and Molasses.

We see by the Family Physician that Dr A Angier Means to again at his post, in the Editorial chair, at South Norridgewock The Doctor's paper appears very finely, and is filled with important notices on medicine, &c. indicating a good degree of prosperity and ease. The farmers up in Somerset undoubtedly keep very fat cows, or so to supply the Doctor with the richest of Strippings, whenever when the Doctor intends to visit our city again! We believe his medicine is working favorably among his patients in this section 4w4

Miscellaneous Testimony concerning the Genuine Dr Evans's Pain Killer.—For twenty years I have been seriously afflicted with Rheumatism in my feet caused by extreme exposure to cold—have expended during that time more than five hundred dollars for various remedies, without any benefit or relief Last January I purchased a bottle of Curtis & Perkins' Compound Pain Killer, which on applying gave me immediate relief. The pain is removed, and I rest perfectly well nights. Any person that will take the trouble to call on me at my store will be satisfied that no intimidating statement has been advanced, as I am advanced in years. HENRY MANSFIELD.

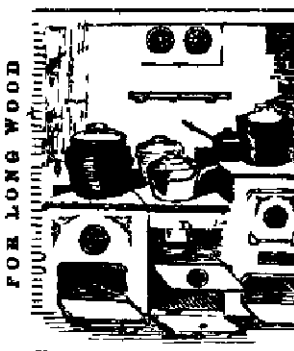
The Mastodon, Air Tight COOKING RANGE,



THE undersigned has the pleasure of offering to the public a Cooking Range which he confidently believes overcomes all objections to other Ranges, and upon trial will prove to be the most economical, convenient and comfortable Range extant It is fitted to burn long wood or coal, and being upon the *Air-Tight* principle and from the peculiar construction of the flues can be used at about two thirds the expense of other Ranges. The large sizes for Hotels, Restorators Steamboats Hospitals &c, contain *fourteen boilers* and *three ovens* The small sizes for families contain *six boilers* and *three ovens* By using wood in summer and closing the dampers between meals, it will not make the room uncomfortably warm, while in Winter it will warm the room as well as other Ranges, with much less consumption of coal The ovens are in front avoiding the danger and inconvenience of reaching over the fire to use them, and the flues even being elevated prevents the inconvenience of stooping

In Winter, the food can be easily kept warm by the auxiliary ovens and large surface The flues can be cleaned when foul in a few minutes *without taking out the ovens* and if the iron work should require repairs it can be taken apart, and replaced *without disturbing the brick work*

John M Dearborn, Esq, the inventor, received a Diploma for this Range at the late Mechanics' Fair in Boston The Diploma may be seen at the Warerooms of the subscriber

References can be given where these Ranges are in use, and also can be seen ready for operation at the RANGE STORE and FURNACE WARE HOUSE, No. 30 Main Street, Bangor Also on hand all other Improved RANGES, for sale at the lowest rates

Mutual Benefit Life Insurance COMPANY.

OFFICE No. 1 GRANITE BLOCK—EAST MARKET SQUARE BANGOR

THE affairs of this Company are in the hands of business men favorably known to the community, who have permission to refer to the following gentlemen in Boston

Hon J G Rogers	Rev A Atwood, D.D.
Hon B. F. Hallett	Rev J K Turner & Son
Mess D Sears Esq	Jos mon Howard & Co

and to the following Gentlemen in Bangor:

Hon Edward Kent,	Charles Hayward,
James Crosby,	Joseph Bryant,
Gen B P Strickland	

This Company offers the following advantages

1st When the premium is over fifty dollars annually, one fourth may be paid in cash, and three-fourths be a secured note, at twelve months, with six per cent interest, or it may be paid half yearly, quarterly, or monthly

2d Persons taking life policies, and paying fifty per cent of premium in cash, and three fifths policies for balance secured, and paying sixty per cent in cash, (if over fifty dollars per annum) may give their individual notes for the balance, if satisfactory to the officers.

Whole number of policies issued in 20 months, to the 1st of January, 1848, 1307

Whole amount of premiums thereon, $444,814 62

Dividend of profits, January 1847, 10 per cent.

The Company has now been about 1 1-2 yrs in operation and it is a publicly big circumstance that its progress has fully equal the principles adopted for the management, and there be found entitled the most unlimited confidence of the friends

The remarkable character of applicants, which is evidenced by the history of Life Insurance, shows that it is entirely in public confidence and that there is no increased disposition in the community to avail of the benefits of the system.

STAVE DRESSER.

THE Subscribers have in operation at Parsons & Barbour's Planing Mill, near the Portland Railway Judson's Stave Dresser It is believed this Machine involves the only principle that can dress a riven crooked or winding Stave This it will do in a perfect manner and with a rapidity corresponding with these days of steam locomotion

It will dress three thousand bbl staves per day and more if you wish, and as many barrel staves as a man can handle

It requires two pointers to compete with the dresser, requiring only three men to attend the three machines; all is done in a handsome manner the joints are perfect so much so that coopers in New Bedford have purchased it for the purpose of manufacturing oil casks

The feeding the machines is much less laborious than dressing staves in the usual way It will be seen from the above statement that casks can be manufactured for half the expense incurred by hand

They are prepared to sell rights for the State of Maine, also for the State of New Hampshire

Permanent Cure of Dyspepsia and habitual Costiveness.

To Dr Relph

DEAR SIR—I have, myself almost no occasion for your inestimable Pills I have used them any number of occasion disturbed, and I have reason to suppose they have wrought a thorough and permanent change in respect to the functions of the stomach From habitual costiveness and the vomiting of nauseous acid my stools have become completely removed The multifarious symptoms of Dyspepsia, with which I was once too well acquainted have so entirely passed away, that I hardly know which they were Any use you can make of this or a more full development of my case, is at your service

Except in an obstetric case your book (Family Physician) and Pills have been the only physician in my house for my years

There are many of my friends around and more and more who call for your Pills as a family medicine and for chronic cases Yours truly,

CONSUMPTION CURED!

PREPARANT SUPERSEDE OF

Buchan's Hungarian Balsam of Life.

THE GREAT ENGLISH REMEDY

FOR

COLDS COUGHS ASTHMA and CONSUMPTION

The most celebrated and INFALLIBLE remedy for Colds Coughs Asthma and Consumption EFFECTUALLY CONSUMPTION is the HUNGARIAN BALSAM of LIFE discovered by Dr Buchan of London England tested for upwards of seven years in Great Britain now on the Continent of Europe and introduced into the United States under the personal superintendence of the Inventor

The astonishing success of the Hungarian Balsam in the cure of every form of CONSUMPTION was to the American Agent in procuring for it the most UNPRECEDENTED CASES that can be found in the community Even the most relentless cases from any of the common complaints of the day, and have been given up by the most leading noted Physicians as confirmed CONSUMPTIVE The Hunter or Balsam has raised and will in the MOST DESPERATE CASES It is much used in the

5,000 CHILDREN, THE PAST SEASON,

as it relieved the cause of disease, and prepared them for the upcoming season It never has been known to injure in the least the most delicate child

RHEUMATISM

This Sarsaparilla is used with the most perfect success in Rheumatic complaints however severe or chronic The astonishing cures it has performed are almost wonderful Other remedies sometimes give temporary relief this entirely eradicates it from the system even when the limbs and bones are dreadfully swollen

☞ Hear Mr Seth Terry one of the oldest and most respectable Lawyers in Hartford Conn The following is an extract of a letter received from him

Dr Townsend—I thought you had a bottle of your Sarsaparilla and I find it excellent as its effects upon a certain very serious attack of rheumatism I am subject from time to time I have converted with two of our principal physicians and they concurred with me, regarding it as a valuable remedy

Hartford 8th Feb 12 1845 SETH TERRY

CONSUMPTION CURED

Cramps and Strengthen Constitution can be cured. Even Chronic Consumption Liver Complaint Colds Catarrh Coughs Asthma Spitting of Blood Soreness in the Chest Hectic Flush, Night Sweats Difficult or Profuse Expectoration Pain in the Side &c have been and can be cured

Dr Townsend—Dear Sir Nearly twenty years ago I took a violent cold which settling on my lungs and affected me severely indeed, finally it became a constant hacking cough but not so severe as to prevent me from attending to my business While this last twenty years it increased on me gradually At last I became confined—I breathed with difficulty and raised with it much mucus and blood a severe and for the last nine months previous to using your Sarsaparilla had regular night sweats, indeed, my friends and myself supposed that I would die with the Consumption, but I have the happiness to inform you that to my surprise, after using two bottles of your Sarsaparilla I find my health and strength restored to me gradually, and I am now enjoying much better health than I have before in 36 years I had almost entirely lost my appetite which was so returned You are at liberty to publish this with my name if you choose

My little girl who is five years old had a very bad cough the whole of last Winter We became very much alarmed on her account I took among the medicine I gave her some of it and it soon entirely relieved her as well as myself to this day I never saw her so fat and hearty as she is now She was also full of little ills these it took them away, and her skin is smooth and fair now and I am satisfied she recovered her health from using your excellent medicine

S. W COVANT, 444 Bowery

GIRLS, READ THIS

You who have pale complexions, dull eyes, blotches on the face rough skin and are "out of spirits," use a bottle or two of Dr Townsend's Sarsaparilla It will freshen your blood remove the freckles and blotches and give you a luminous sparkling eye, fine spirits and beautiful complexion all of which are of immense value to unmarried ladies

GREAT FEMALE MEDICINE

Dr Townsend's Sarsaparilla is a sovereign and speedy cure for Incipient Consumption, Barrenness, Leucorrhœa or Whites obstructed or difficult Menstruation, Incontinence of Urine, or involuntary discharge of same, and for the general prostration of the system—in matter whether the result of inherent cause or disease produced by intemperance illness or accident

No language can be more expressive than is my grateful feeling as to its beneficial effects in such cases Persons subject to weakness and lassitude from taking it, at once become robust and filled with energy under its influence It immediately counteracts the nervousness of the female frame which is the great cause of barrenness

It will not be made to produce a cause of so delicate a nature to exhibit certificates of cures performed, but we can assure the afflicted that hundreds have been reported to us Several cases where families have been without children, after taking a few bottles of this unequalled medicine have been blessed with a healthy offspring

To Consumptives My wife being greatly distressed by weakness and general debility as well as suffering continually pain and sensation of bearing down, falling of the womb and with other difficulties and having known cases where your medicine has effected a cure and also hearing it recommended for such cases I have procured for her a bottle of your Extract of Sarsaparilla and followed the directs as you gave me In a short period it removed her complaints and restored her to health Being grateful for the benefits she received I take pleasure in thus acknowledging it and recommending it to the afflicted M D MOORE

BROOKLYN, Jan 25, 1847

A year since I was in pain with the rheumatism, my whole system left be administered to, I succeeded to try Dr. Townsend's Sarsaparilla, and after using three or three bottles, I was very much relieved, and withdrawn it entirely to the said Sarsaparilla. I have since used it occasionally, and find that I improve every day. I believe that it needs only this, and would not be without it unless my recommendation. G. W. McLEAN.

DR. UPHAM'S

Vegetable Internal Remedy

FOR THE PILES!

A Cure for Life Secured.

For the cure of Piles, Inflammation of the Liver and Spleen, Inflammation, Soreness and Ulcerations of the Stomach, Bowels, Kidney and Bladder, Inflammatory and Mercurial Rheumatism Impurity of Blood, Weakness and Inflammation of the Spine and for the relief of Married Ladies

THE VEGETABLE PILE ELECTUARY invented by Dr A Upham a distinguished Physician of New York city, is the only really successful remedy for that dangerous and distressing complaint, the Piles, ever offered to the American public.

Mark then, it is an INTERNAL REMEDY—not an external application, and will cure any case of Piles, either bleeding or blind, internal or external and positively the only thing that will There is no mistake about it It is a positive cure—speedy and permanent. It is also an invaluable medicine to take, and improves the general health in a remarkable manner

Each box contains twelve doses, at $1 1-2 cts per dose, It is very mild in its operation, and may be taken in cases of the most acute inflamation without danger — All external applications are in the highest degree unpleasant, inconvenient and offensive, and from the very nature of the disease unnecessary to their effects. This Medicine attacks the disease at its source, and, REMOVING THE CAUSE renders the cure CERTAIN and PERMANENT

INFLAMMATORY DISEASES

Although the ELECTUARY was originally prepared for the cure of Piles, yet it has proved itself a medicine far superior to all others, in all diseases of an inflammatory character where a determination of blood to any particular part or organ is to be formed and completed as the Liver and Spleen, Inflamation, Soreness and Ulceration of the Stomach, Bowels, Kidneys and Bladder, as inflammatory and mercurial Rheumatism, it is the BEST Medicine ever discovered

IMPURITIES OF THE BLOOD

For all such affections of the Blood arising from the imprudent use of Mercury, or other causes, for all diseases of the Skin, and Scrofula as Affections, in all cases where the blood is powerfully debilitated to the height producing weakness and distress DR. UPHAM'S ELECTUARY is certain in its operation.

TO MARRIED LADIES

Married Ladies are almost invariably subject to that painful and injurious disease, the PILES, with consequent inflammation of the Stomach, Bowels and Spine, weakness of the back flow of blood to the head &c — The Electuary is perfect safe for Pregnant Ladies, and the most useful Cathartic that can possibly be used, as it will not only remove the Piles and all inflammatory diseases WITHOUT PAIN or IRRITATION but will restore an easy tone, a wakefulness and a sound constitution in the offspring

CURE FOR LIFE GUARANTIED.

The Electuary contains NO MINERAL Medicine as Aloes, Colocynth, Gamboge, or other powerful and irritating purgatives No fear of taking cold while undergoing Indisposition, no change in diet necessary. If taken according to the directions, A CURE FOR LIFE IS GUARANTIED.

GREAT SUCCESS OF UPHAM'S

PILE ELECTUARY.

Portland, Me, March 14, 1847

Dr Upham—My dear Sir—I cannot express to you the sincere and heartfelt thanks for the wonderful cure I have experienced by the use of your truly valuable Pile Electuary I have been a perfect martyr to the Bleeding Piles for 10 years past, so much so that I became reduced to almost a skeleton, with loss of appetite, and general derangement of the digestive organs My case also became affected, and in fact I was a cripple myself I was obliged to give up my business I had tried all kinds of medicine had the best advice the Doctors in Boston and this place could afford spent much money—and twice submit to a painful operation I had become perfectly tired of life, and at the suggestion of my friends I was induced to try a box of your medicine at The first I found to relieve me slightly, still I persevered, and purchased a second, and I assure you, when I got half through, I found myself getting well, still I kept on, and now I am a well man My dear Sir language cannot express the heart felt thanks that I am once more restored to health, and now in a condition to support my large family, dependent on me

DISEASES OF THE Throat and Lungs.

COUGHS and Colds the fruitful parents of Consumption, Bronchitis Asthma, Pleurisy and many other dangerous diseases, are too often neglected until the ruinator of the System Consumption has laid deep in the System. The Physicians often called in, who administer a few Palliatives, but declares the disease incurable and the Patient in consumption of his opinion, that but why does he live? Simply because he does not resort to the proper remedy, but trusts the more fine dust of a Practitioner rather than the infallible evidence of experience and his most authentic testimony On this basis is the only true one, the efficacy of

DR. VONDERSMITH'S

CITY OF NEW YORK July 31st, 1847

This is to CERTIFY that I, Nelson Larabee, of Jersey City, have been subject to a dry hacking cough and a pain in the side and chest, at times with night sweats and general weakness of the system for a period of twenty years, and pronounced INCURABLY CONSUMPTIVE, neither the advice of regular physicians nor the many advertised remedies I have taken have been of any permanent benefit, and I was finally beginning to despair of ever relieving myself, when I was persuaded to try Dr F W VONDERSMITH'S INDIAN COUGH BALM AND LUNG BALSAM, by the use of which, all my symptoms have been removed and I have been wonderfully restored to the blessings of health and the prospect of a prolonged existence.

In great haste for which, and in the hope of benefiting others, I solemnly testify to the facts in the certificate

INFLAMMATION OF THE LUNGS.

New York June 29, 1847

Dr VANDERSMITH—I have been subject to a cough, pain in the chest & difficulty of breathing, &c, for many years past. About four months ago I took a severe cold which settled on my lungs and I was obliged to keep my house for two months unable to attend to my business during the day I had but little rest that I thought I could not possibly survive much less I could get relief The evenings night sweats had reduced my whole body to a skeleton I expectorated white frothy mucous in fact, I could I give the full particulars of my case it would be almost incredible I was recommended to try Dr VONDERSMITH'S INDIAN COUGH BALM AND LUNG BALSAM. I commenced when I had used it about one week, my cough diagnosed some durable, which gave me great hope I continued with the medicine according to directions and the result has been that I am restored to health, a blessing this, I have not enjoyed for years Apart from my own case, I sincerely believe had I not made use of Dr V's invaluable Medicine that I would be misleading in the silent grave Therefore I believe that I am doing nothing but justice in stating the above facts, so that you may show it to all the afflicted who may call upon you to administer to them I shall be pleased at any time to converse with the afflicted who may call upon me.

Your grateful patient and friend

CONSUMPTION.

DYSTER ISLAND, June 16th, 1847

DEAR SIR—I take great pleasure in giving you my certificate that December I was attacked with a severe cough, pain in my left side, loss of appetite, and considerable weakness and yellow appearance. Some days I'm not a half pint of nutrum, streaked with blood. I have been under the treatment of six doctors physicians, was prescribed for by Dr Blanchard Parish Physician, and I betching time, I purchased one, I only made use of it for one week; it was the means of bringing on hemorrhage of the lungs; which subsequence so much that I was unable to get up, my entire case entirely destroyed, it was difficult for persons to understand me. I sent for Vondersmith's Medicine recommended me very strong by a person whom he had cured; I sent for half a dozen bottles, I received great benefit from that, which induced me to purchase a second positive I took according to the directions, and I found me perfectly cured Yours, &c, DANIEL WILLSEY.
